

Kyiv

Ramil Bayramov

Frontend Developer with 10 months of hands-on experience.

OVERVIEW

Frontend Developer with **10 months** of hands-on experience having built **13 projects** in GitHub from landing pages and apps to SPAs. Passion, collaboration and meeting the deadline — what I'm all about.

Currently seeking a Junior role to apply and grow my skills, and start to build great products.

[Live](#) | Clean and simple to-do list app for managing and tracking tasks.

SOFT SKILLS

Passionate

Loving to build code and always learning new web tools.

Collaborative

Working with designers and devs to build great websites.

Reliable

Dedicating myself to finishing every web project on time.

Expressive

Explaining technical ideas simply and working well with the team.
